ABHISHEK BHATTACHARYA

The Department of Mathematics
The University of Arizona
617 N Santa Rita Ave
Tucson, Az 85721.

EDUCATION LEVEL:

1. Bachelor of Statistics (B.Stat.Hons.), Indian Statistical Institute, 1999-2002.

2. Master of Statistics (M.Stat.Hons.), Indian Statistical Institute, 2002-2004.

3. Doctor of Philosophy (Ph.D.), Department of Mathematics, University of Arizona, 2004-2008.
   Thesis title: Nonparametric Statistics On Manifolds With Applications To Shape Spaces, Thesis advisor: Prof. Rabi Bhattacharya.

4. Presently working as a Postdoctoral Associate in the Department of Statistical Sciences, Duke University, under the mentorship of Prof. David Dunson.

COMPLETED GRADUATE COURSES:

Statistics: Large Sample Statistical Methods, Sample Surveys, Design of Experiments, Statistical Inference, Regression Techniques, Multivariate Analysis, Time Series Analysis, Nonparametric Statistics, Bayesian Inference, Spatiotemporal Data Analysis.

Probability and Measure Theory: Measure Theoretic Probability, Discrete Time Stochastic Processes, Continuous Time Stochastic Processes, Stochastic Differential Equations, Advanced Probability.

Mathematics: Real Analysis, Metric Topology, Complex Analysis, Discrete Mathematics, Functional Analysis, Advanced Algebra,

Algebraic Topology, Geometry-Topology, Global Differential Geometry, Applied Analysis.

CUMULATIVE U of A GRADE POINT AVERAGE IN THE ABOVE COURSES: 4.00

TEACHING EXPERIENCE:
Graduate Teaching Assistant at University of Arizona

Courses Taught MATH 110: College Algebra (Fall 2005, Spring 2006), MATH 160: Basic Statistics (Spring 2007, Fall 2008), MATH 120: Calculus Preparation (Fall 2007), MATH 113: Elements of Calculus (Summer 2008).

Recitals MATH 254: Differential Equations (Fall 2006)
Helped the students with their homework assignments and conducted review tests in weekly recital sessions.

Super TA
MATH 523: Real Analysis (Fall 2006) Assisted in the instruction of graduate course of Analysis by holding weekly problem sessions.
Math 425: Mathematical Analysis (Spring 2007) Assisted the Professor in teaching the course.
MATH 534: Topology-Geometry (Fall 2007) Assisted in the instruction of the graduate course by holding weekly problem sessions.

Participated in the Integration Workshop, 2006 as a senior graduate student. Helped to integrate incoming graduate students into the graduate math program.

HONOURS & AWARDS:

1. Awarded scholarships for good performance in various semesters in

Indian Statistical Institute.

2. Selected to receive the Institute of Mathematical Statistics Laha Travel Award to attend the IMS Annual Meeting, 2006.
3. Selected to receive reimbursement from the National Science Foundation to attend the 2006 IMS Annual Meeting.
4. Selected to receive a Mathematical Sciences Research Institute funding to participate in the workshop on Topological Methods in Combinatorics, Computational Geometry, and the Study of Algorithms, 2006.
5. Awarded financial support to attend the 2007 Data Sciences Summer School at Los Alamos National Labs.
6. Selected to receive reimbursement from the 2007 Nonparametric Statistics Conference Organizing Committee to attend the conference.
7. Awarded Graduate College Fellowship and Graduate Incentives for Growth Award (GIGA) fellowship for Spring 2008 semester at University of Arizona.
8. Awarded for Outstanding Research in Mathematics in 2008 from the Department of Mathematics, University of Arizona and nominated for a College of Science award in the same category.

CONFERENCES/WORKSHOPS ATTENDED:

1. Participated in the Summer Research Fellowship Programme of the Jawaharlal Nehru Centre for Advanced Scientific Research, India in 2001 and did a project using Randomized Response Techniques in Sample Surveys.
2. Participated in the Visiting Students' Research Programme held at Tata Institute of Fundamental Research, India during May 15 to June 16, 2002.

3. Attended the 21^{st} Annual Workshop on Mathematical Problems in Industry held at Worcester Polytechnic Institute, Massachusetts from June 13-17, 2005.

4. Attended the 5^{th} Annual Red Raider Mini-Symposium held at Texas Tech University, Nov 17-19, 2005 and presented a poster on **Bootstrap in Time Series Models**.

5. Participated as a speaker in the IMS Annual Meeting, held at IMPA, Rio de Janeiro, from July 30 to August 4, 2006.

6. Participated as a speaker in the MSRI workshop titled "Workshop on Topological Methods in Combinatorics, Computational Geometry, and the Study of Algorithms" held from October 02 to October 06, 2006.

7. Attended the 2007 Data Sciences Summer School at Los Alamos National Labs, from June 24 to August 24, 2007, and did a project under Dr. K. R. Vixie.

8. Attended the 2007 Nonparametric Statistics Conference on Current and Future Trends in Nonparametrics, held at the University of South Carolina in Columbia, South Carolina October 11-12, 2007 and presented a poster titled **Statistics on Placenta Shapes**.

9. Presented a poster on **Nonparametric Analysis of Shapes with Applications to Morpometrics and Medical Diagnostics** at the 2007 AHSC Frontiers in Biomedical Research Poster Forum held on October 17, 2007 at AHSC Plaza, University of Arizona.

10. Attended the 2008 Spring CAM Conference on Emerging Directions in Probability and Statistics, held at the University of Notre Dame February 29 - March 2, 2008.

11. Attended the 2008 Industrial Mathematical and Statistical Modeling Workshop for Graduate Students held from July 21-29, 2008 at North Carolina State University and worked on a project titled **Cardiovascular events associated with Oral and IV-administered antibacterial agents**.

12. Participated as a speaker in the 2008 Joint Statistical Meetings held at Denver, Colorado from August 3-7, 2008 and gave a talk titled **Nonparametric Inference on Shape Spaces**.

2. **Statistics on Riemannian Manifolds: Asymptotic Distribution and Curvature** (with Professor R. Bhattacharya). *Proceedings of the American Mathematical Society* 136 (2008) 2959-2967.
3. **Statistics on Manifolds with Applications to Shape Spaces** (with Professor R. Bhattacharya). *Perspectives in Mathematical Sciences.* Indian Statistical Institute, Bangalore. *In Press.*
4. **Statistical Analysis on Manifolds: A Nonparametric Approach for Inference on Shape Spaces**. *To appear in Sankhya.*
5. **Nonparametric Inference on Shape Spaces**. *To appear in JSM Proceedings (2008).*

OTHER RECENT PAPERS, PROJECTS, PRESENTATIONS:

1. **Masters Project.** Presented a paper on various Bootstrap Techniques in different Time Series Models, and deduced various consistency results on the Estimators. Project report: **Bootstrap in Time Series Models**, Project supervisor: Dr.Arup Bose, Spring 2004.
2. **Research Tutorial Group Project.** Presented a paper on various notions of centers of arbitrary manifolds and their properties. Presentation: **Statistics on Manifolds: Frechet means and their estimation**, Project supervisor: Professor R. Bhattacharya, Fall 2005.

3. **Comprehensive Exam project.** Presented an article on **Statistics on Riemannian Manifolds with applications to the Planer Shape Space**, Project Advisor: Professor R. Bhattacharya, Fall 2006.

4. **Spatiotemporal Data Analysis Workshop Project.** Did a project to study if there is a bidecadal oscillation in global surface air temparatures. Project report: **Oscillations and Warming Trend in Global Temperature time series**. Project supervisor: Professor Michael Evans, Fall 2006.

5. **IMS Annual Meeting Paper.** Presented a paper titled **Intrinsic Mean on Manifolds**, July 31, 2006.

6. **MSRI Workshop Presentation.** Gave a talk on **Statistics on the Planer Shape Space**, October 06, 2006.

7. **2007 Los Alamos National Labs Summer School Project.** Project report: **Statistics on Placenta Shapes**.

8. **2007 Nonparametric Statistics Conference presentation.** Poster on **Statistics on Placenta Shapes**.

9. **2007 AHSC Frontiers in Biomedical Research Poster Forum presentation.** Poster on **Nonparametric Analysis of Shapes with Applications to Morpometrics and Medical Diagnostics**.

10. **2008 Industrial Mathematical and Statistical Modeling Workshop Project.** Project Report: **Cardiovascular events associated with Oral and IV-administered antibacterial agents**

11. **2008 Joint Statistical Meeting Presentation.** Gave a talk on **Nonparametric Inference on Shape Spaces**, August 07, 2008.

PROFESSIONAL MEMBERSHIPS:

- AMS
- IMS

COMPUTER SKILLS

Experienced in UNIX, Linux, C, MATLAB, S-Plus, Latex and Power Point.
