

Notes for Week #2 (1/21)

1. Please complete and turn in the College Algebra Survey if you have not already done so.
2. Assignment #1 is due today. However, you can still turn it in on Friday before class with no penalty. No assignments will be accepted after the beginning of class on Friday.
3. I will be in the Math Tutoring Lab (Math East Building, Room 145) from 3:00-4:00 PM on Thursdays. This lab is open for College Algebra students on Monday thru Thursday from 1:00-4:00 PM, and on Friday from 11:00 AM-2:00 PM. Also, all College Algebra students are able to get free tutoring assistance at MASTR (Math and Science Tutoring Resource) which is open on Sunday thru Thursday evenings from 5:30-9:30 in the ILC Classroom Room 119.
4. A reminder concerning Homework Assignments:
  1. All assignments are to be done on engineering paper. Engineering paper is not graph paper or notebook paper. Please use only one side of the paper.
  2. Show all work neatly since messy papers may not be graded.
  3. Include graphs where appropriate. The graphs can either be a sketch or a computer printout with important information identified.
  4. Staple your papers together.
  5. Make sure you do the assigned problems since no credit will be given for the work on an incorrect problem.

Assignment #2

Day	Practice Problems	Problems To Turn In
Wednesday	1. 1.1 #15, 17, 23, 27	1. 1.1 #16, 24, 28
