

Notes for Week #7 (2/23)

1. Test #2 is next Friday, March 6th. Therefore, there is no assignment to be turned in next week. The test will cover sections 1.5, 1.6, 2.1, and 2.2. Bring the Workbook to class a week from this Wednesday for our in-class review session.
2. Just a reminder, although you are able to work together in doing homework assignments, copying someone's assignment will not be tolerated. If this occurs, all students involved will receive no credit on the assignment.
3. I will be out of town attending a conference this weekend. Therefore, I will not be here to teach class nor be available for office hours Friday morning. Class is not cancelled on Friday, however! A good friend, and very good teacher, will be teaching our class Friday. It is an important class for material that will be on Test #2.
