

Written Assignment 7 (due 11/05/12)

Exercise 1: Problem 31 from section 4.4 of the textbook.

Exercise 2: Problem 34 from section 4.6 of the book.

Challenge Problem: This problem will *not* be graded. Problem 50 from section 4.4 of the textbook. This exercise looks at a neat example from physics called Snell's Law. Among other things, Snell's Law explains why if you look at a glass of water from the side with a straw in it, the straw will appear bent.
