

MATH 129 – Calculus II
Section 02 MTWRF 11:00 – 12:45
Summer 2013: July 8-August 7

Instructor: Professor Ken McLaughlin

Office Hours: T, F 3-4

Office: Math Tower 705

Email: mcl@math.arizona.edu

Course Webpage: <http://math.arizona.edu/~mcl/M129.html>

Department Calculus Webpage: <http://math.arizona.edu/~calc>

Text: Calculus, Fifth Edition by Hughes-Hallett et al. published by Wiley.

Attendance: Students are expected to attend every scheduled class and to be familiar with the University Class Attendance policy as it appears in the General Catalog. It is the student's responsibility to keep informed of any announcements, syllabus adjustments or policy changes made during scheduled classes, by email, or through D2L. Students are expected to behave in accordance with the Student Code of Conduct and the Code of Academic Integrity. The guiding principle of academic integrity is that a student's submitted work must be the student's own. University policies can be found at <http://deanofstudents.arizona.edu/policiesandcodes>.

Homework/Quizzes: (100 points) Homework will be submitted in two formats. A computer grading program called WebAssign will be used for problems assigned from the text (see other side for more information). In-class quizzes will also be given. These problems will come from the text and/or from a set of problems created by your instructor. No calculators are allowed on quizzes. There are no make-up quizzes, but some quizzes may be dropped. A final homework/quiz score based on 100 possible points will be assigned.

In-Class Exams: (300 points) The three in-class exams are scheduled for **Monday, July 15, Monday, July 22, and Wednesday, July 31**. Each exam will be worth 100 points. All electronic devices must be turned off during all exams.

Missed exams will count for zero points, unless a valid excuse (as defined by official University policy) is clearly documented and actions are taken to advise the Professor of the situation in as timely a manner as possible, in which case the score for that exam will be replaced by the average of your other in-class exam scores.

Final Exam: (200 points) The final exam is scheduled for **Wednesday, August 7**. Additional information and a study guide can be found at <http://math.arizona.edu/~calc>. The University's Exam regulations will be strictly followed (see <http://www.registrar.arizona.edu/schedule131/exams/examrules.htm>)

Calculators:

A graphing calculator is an important tool that will be used throughout this course. We recommend any model in the TI-83 or TI-84 series. Models that can perform symbolic calculations (also known as CAS) are NOT allowed on exams and quizzes. CAS models include

(but are not limited to) the TI-89, TI NSpire CAS, HP 50g, and Casio Classpad 330. Students are not allowed to share calculators during exams and quizzes.

Grades: The total number of points available on tests and homework is 600. Grades will be no lower than those set forth in the following table

$540 \leq \text{points} \leq 600$	90% to 100%	A
$480 \leq \text{points} \leq 539$	80% to 90%	B
$420 \leq \text{points} \leq 479$	70% to 80%	C
$360 \leq \text{points} \leq 419$	60% to 70%	D
$0 \leq \text{points} \leq 359$	0% to 60%	E

Note: A grade of C or better in Math 129 is a necessary prerequisite for Math 215 (Linear Algebra), Math 223 (Vector Calculus) and Math 254 (Differential Equations). Students who receive a D in Math 129 will receive credit for the course towards graduation requirements, and will be able to use their course for the general education math requirement, but will not be automatically qualified to register for Math 215, 223, or 254.

Students with disabilities:

If you anticipate issues related to the format or requirements of this course, please meet with your instructor to discuss ways to ensure your full participation in the course. If you determine that formal, disability-related accommodations are necessary, it is very important that you be registered with Disability Resources (621-3268; drc.arizona.edu). You should notify your instructor of your eligibility for reasonable accommodations by Friday, January 18. At that point, you and your instructor can plan how best to coordinate your accommodations.

Incompletes:

The grade of I will be awarded if all of the following conditions are met:

1. The student has completed all but a small portion of the required work.
2. The student has scored at least 50% on the work completed.
3. The student has a valid reason for not completing the course on time.
4. The student agrees to make up the material in a short period of time.
5. The student asks for the incomplete before grades are due, 48 hours after the final exam.

Computing Resources: Information about using computers on campus, setting up a UA email account, and computer support can be found at <http://www.oscr.arizona.edu>. A list and map of open access computing facilities on campus can be found at <http://www.oscr.arizona.edu/maps>.

D2L Site: A very simple D2L site will be used to record exam and quiz grades. Homework grades will not appear on the D2L site.

Instructions for WebAssign: To create an account for this class go to <http://webassign.net>, click on the Log-In button, then click on the I Have a Class Key button.

Our class key is arizona 9316 4307. You must do this even if you have used WebAssign in the past or are using it for another course this semester. There is a 14-day grace period (from the first day of classes) before you must purchase/ submit your access code for this class. Each time you log-in, you will see a reminder.
