**Text:** Calculus, Sixth Edition by Hughes-Hallett et al. published by Wiley.

**Attendance:** You are expected to attend every scheduled class and to be familiar with the University Class Attendance policy as it appears in the General Catalog. It is your responsibility to keep informed of any announcements, syllabus adjustments or policy changes made during scheduled classes, by email, or on the course webpage. Please behave in accordance with the Student Code of Conduct and the Code of Academic Integrity. The guiding principle of academic integrity is that a student's submitted work must be the student's own. University policies can be found at <http://deanofstudents.arizona.edu/policiesandcodes>.

**Homework/Quizzes:** (100 points) Homework will be submitted in two formats throughout the semester. We will use WebAssign for computer-graded problems, and I will also assign hand-written homework to be turned in. These problems will come from the text and/or from a set of worksheets. Please see the 'homework guidelines' for instructions on how to write up homework. In-class quizzes will also be given periodically - there will be no make-up quizzes, but some quizzes may be dropped at the end of the course. A final homework/ quiz score based on 100 possible points will be assigned.

**In-Class Exams:** (400 points) The four in-class exams are tentatively scheduled for **Thursday, February 27; Friday, March 28; Tuesday, April 15; and Friday May 2**. Each exam will be worth 100 points. In general, there will be no make-up exams in the course. However, in complex and unusual circumstances beyond your control, a make-up exam may be given on a case-by-case basis. This will require providing a detailed account of the situation and supporting documents. Approval in these cases is at the sole discretion myself and/or the dean of students.

**Final Exam:** (200 points) The final exam is a comprehensive common department exam. It is scheduled for **Monday, May 12 from 1:00-3:00 pm**. Additional information and a study guide are available on the course webpage. The University's Exam regulations will be strictly followed (see <http://www.registrar.arizona.edu/schedule2141/exams/examrules.htm>).

**Calculators:**

A graphing calculator is an important tool that will be used throughout this course. We recommend any model in the TI-83 or TI-84 series. Models that can perform symbolic calculations (also known as CAS) are NOT allowed on exams and quizzes. CAS models include (but are not limited to) the TI-89, TI NSpire CAS, HP 50g, and Casio Classpad 330. Students are not allowed to share calculators during exams and quizzes, and no, you cannot use your phone as a calculator.

**Grades:** The total number of points available on tests and homework is 700. Grades will be *no lower* than those set forth in the following table

$630 \leq \text{points} \leq 700$	90% to 100%	A
$560 \leq \text{points} \leq 629$	80% to 90%	B
$490 \leq \text{points} \leq 559$	70% to 80%	C
$420 \leq \text{points} \leq 489$	60% to 70%	D
$0 \leq \text{points} \leq 419$	0% to 60%	E

Note: A grade of C or better in Math 122B or 125 is a necessary prerequisite for Math 129 (Calculus II). Students who receive a D in Math 122B or 125 will receive credit for the course towards graduation requirements, and will be able to use their course for the general education math requirement, but will not be automatically qualified to register for Math 129.

**Students with disabilities:**

If you anticipate issues related to the format or requirements of this course, please meet with me to discuss ways to ensure your full participation in the course. If you determine that format, disability-related accommodations are necessary, it is very important that you be registered with Disability Resources (621-3268; [drc.arizona.edu](http://drc.arizona.edu)). You should notify me of your eligibility for reasonable accommodations by Monday, February 17. At that point, we can plan how best to coordinate your accommodations.

**Students withdrawing from the course:**

You may withdraw from the course with a deletion from your enrollment record through March 3 using UAccess. You may withdraw with a grade of "W" or change to Audit through March 24 using a change of schedule form with my signature. The University allows withdraws after March 24, but only with the Dean's signature. Late withdraws are dealt with on a case-by-case basis, and requests for late withdraw without a valid reason may or may not be honored.

**Incompletes:**

The grade of I will be awarded if all of the following conditions are met:

1. The student has completed all but a small portion of the required work.
2. The student has scored at least 50% on the work completed.
3. The student has a valid reason for not completing the course on time.
4. The student agrees to make up the material in a short period of time.
5. The student asks for the incomplete before grades are due, 48 hours after the final exam.

**Instructions for WebAssign:** To create an account for this class go to <http://webassign.net>, click on the I Have a Class Key button. Our class key is **arizona 5706 5659** You must do this even if you have used WebAssign in the past or are using it for another course this semester. There is a 14-day grace period (from the first day of class) before you must purchase/ submit your access code for this class. Each time you login, you will see a reminder.
