Calculators: A scientific calculator is required for this class. Graphing calculators are also acceptable.

HOMEWORK: (100 points) See instructor's policy. This will include Mymathlab, written assignments, class activities and/or quizzes.

EXAMS: There will be four 100-point in-class exams and a comprehensive final exam worth 200 points. Dates for the in-class exams will be announced in class at least one week prior to the exam. The date and time for your final exam can be found at <http://www.registrar.arizona.edu/schedule104/exams/104exams.htm>

MISSED EXAMS: Students are expected to be present for all exams. If a verifiable emergency arises which prevents you from taking an in-class exam at the regularly scheduled time, you must notify your instructor as soon as possible, and in any case, prior to the next regularly scheduled class. Make-up exams will be administered only at the discretion of the instructor. If a student is allowed to make up a missed exam, (s)he must take it at a mutually arranged time. No further opportunities will be extended. Failure to contact your instructor as stated above or inability to produce sufficient evidence of a real emergency will result in a grade of zero on the exam. Make-up exams will be given only for an unavoidable and documented absence. The student must contact the instructor PRIOR to the exam to be eligible for a make-up. Otherwise, the student will receive a zero for that exam.

PROJECT: There is a project required in this course. The project will be worth 100 points. The project will be incorporated into the Finance section.

GRADES: The following scale for semester averages is guaranteed not to be raised:

90-100%	A
80-89%	B
