Syllabus for Math 1&2 Spring 2014

Instructor: Patrick Waters
               pwaters@math.arizona.edu

Lectures: Tuesday & Thursday 2-4:30 pm
               Room 318 of Harvil building

Textbooks: *Fourier Analysis and Its Applications*, by Gerald B. Folland
               A First Course in Probability, by Sheldon Ross

Grades

Each course will have its own midterm exam, final exam and grade. Homework assignments may include questions corresponding to both courses, and may affect the grades for both courses. The course grades will be determined by the following weights. I may grade the homework for either completeness or correctness at my discretion.

Midterm exam	40%
Final exam	45%
Homework	15%
