

# FACULTY POSITIONS IN APPLIED MATHEMATICS AT MIT

The applied mathematics group at MIT is seeking to fill possible positions at the level of Instructor, Assistant Professor, or higher, beginning September 2009. Appointments will be made based on demonstrated outstanding research qualifications.

Candidates in all areas of applied mathematics, including physical applied mathematics, computational molecular biology, computer science, numerical analysis and scientific computation will be considered.

Current activities of the group include: combinatorics, operations research, theory of algorithms, numerical analysis, astrophysics, condensed matter physics, computational physics, fluid dynamics, geophysics, nonlinear waves, computational molecular biology, computer science, quantum computing and quantum field theory, but new hiring may involve other areas as well.

## TO APPLY:

- Submit applications and other materials, including (a) curriculum vitae, (b) research description and (c) three (separately-sent) letters of recommendation on-line at [www.mathjobs.org](http://www.mathjobs.org) by January 1, 2009.
- If this on-line route proves inconvenient for recommenders, their letters (but no duplicates) may be e-mailed as PDF attachments to [applied@math.mit.edu](mailto:applied@math.mit.edu) or sent via the normal mail to:
