

Midsemester Evaluation: MATH 111 - Section 004

Spring 2011

Please answer each of the following questions briefly but candidly. As with any feedback, constructive comments are the most helpful. If you run out of space, feel free to continue your comments on the other side of the paper.

What do you like about the class?

How is the course different than you expected? Why?

What is your favourite topic of the course so far?

Which topic do you find the most difficult so far? Why?

Approximately how many hours are you spending on this class per week outside of classroom? How does it compare with your other classes?

Have you utilised office hours this semester? How many times? Do you find the office hours useful?

What changes could *you* make to benefit your own learning in the course?

What suggestions do you have for improving the class?

What advice would you give to a student entering this class?
